

CSCRL SPRING SYMPOSIUM

UTILIZING TECHNOLOGY FOR COMPETITIVE ADVANTAGE IN THE SUPPLY CHAIN

APRIL 21-22, 2022

ABSTRACT

TRANSFORMING BUSINESS WITH INTELLIGENT SUPPLY CHAIN SOLUTIONS

CRAIG BLESSING

STRATEGIC CLOUD PROGRAMS DIRECTOR, OPENTEXT

Discussion on key elements to providing intelligent services for supply chains, and case studies on why OpenText is used by 22 of Gartner's top 25 global supply chains, with 24 billion transactions exchanged across our network that process \$8 trillion in transaction value each year.

OpenText helps companies build flexible supply chain ecosystems that are agile and responsive to rapidly changing customer and market demands. The leading platform for supply chain integration, OpenText™ Trading Grid™ is a flexible configurable digital backbone enabling organizations to optimize supply chain processes across the entire trading community. Trading Grid includes Active Applications, a suite of SaaS solutions to streamline and accelerate supply chain business processes, including order management, electronic invoicing, community management and retail deductions management. Delivered as a global multi-tenant service, Trading Grid provides ongoing innovation and keeps current with evolving standards and regulations to future proof business.
