

## ADVISORY COUNCIL MEMBER

Center for Supply Chain Research at Lehigh

**David W. Lankewicz**  
Senior Director –  
Procurement, Inventory,  
and Logistics  
Lutron

David Lankewicz is a Senior Director at Lutron Electronics, the global leader in lighting controls and automated shading solutions. Since 2018, David has been responsible for managing Lutron’s procurement, inventory, and logistics teams. In this capacity, he oversees people, systems, and external relationships to ensure the acquisition and flow of materials for delivery of high-quality products to Lutron’s customers.

Prior to joining Lutron Electronics, David gained broad experience in the areas of supply chain, engineering, and operations across multiple high technology industries. For 14 years, he served as Director of Purchasing and Logistics for Saft Batteries, a global leader in industrial Li Ion and NiCd batteries for industrial space and military applications. At Saft, he was responsible for managing rapid growth across 17 international facilities. David also served as Director of Purchasing and Logistics for Optical Fiber Systems. David spent 10 years at Alcatel Cable Systems, one of the largest optical fiber plants in the US. At Alcatel, he held positions of increasing responsibility in engineering and operations, notably, as Business Unit Leader.

David received his BS in Electrical Engineering from Auburn University in 1988. He was then commissioned as a US Navy officer, where he served for six years. David and his wife, Jennifer, live in the Lehigh Valley and have a son and a daughter.
