Warehouses and Distribution Centers have clearly become the area of focus as 2 days delivery windows become required and as E-commerce grows dramatically. However, the way we think about laying out a Distribution facility has not changed much in the last 30 years. In this presentation a completely new way to lay out a distribution facility to fit the ever changing needs of e-commerce will be presented. The focus will be on how to use automation in a scalable and modular fashion to improve efficiency and efficacy will be discussed.
