- Victaulic

WHAT DO OUR RECENT GRADUATES SAY?

“For many years I wavered about pursuing an MBA. It remained a goal of mine, but professional and personal demands always seemed to interfere, and a full-time program seemed increasingly like an unviable option. If I had not discovered the Lehigh FLEX MBA, I’m not sure that I ever would have fulfilled this goal. However, it has been such a gratifying experience. With its flexible approach and virtual learning capabilities, I am truly convinced that it is the only MBA program that would have been possible for me at this stage in my life and career.

ERIC J., CLASS OF 2022, DIRECTOR OF CORPORATE DEVELOPMENT, GOPUFF

“My Lehigh Engineering degree provided the fundamentals I needed to launch my career. When I realized I needed to enhance my tactical business skills to continue my professional growth, I naturally gravitated back to my alma mater. Lehigh’s FLEX MBA program enabled me to work toward my degree without compromising my daily work responsibilities. Earning my MBA in Business Analytics will enable me to integrate a strategic business focus into my technical skill set, which I believe will position me well for further success.

LAWRENCE H., CLASS OF 2021, SENIOR MANAGER, CISCO
