ABSTRACT

**WHICH SIDE OF THE DESK ARE YOU ON? REAL WORLD INDUSTRY STRATEGIES FOR
HIRING AND GETTING HIRED IN THE AUTOMOTIVE INDUSTRY.**

JANET RIVERA JONES
PRESIDENT, 5 STAR GLOBAL RECRUITMENT PARTNERS

Throughout my 20 years of experience as a recruiter in the automotive industry, I've come to understand one crucial fact - "the people are the same, and the only difference is which side of the desk they're on." Every day, I receive calls from either a company looking for assistance in filling a critical position or a candidate who needs help finding a job. In this presentation, I will provide real-world examples from both perspectives, specifically focusing on tier 1 and tier 2 automotive suppliers that support the big OEMs.
