

CSCRL FALL FORUM

TALENT AND TECHNOLOGY - THINKING OUT OF THE BOX
NOVEMBER 2-3, 2023

SPEAKER BIO

KOFI ARHIN

ASSISTANT PROFESSOR, DECISION AND TECHNOLOGY ANALYTICS (DATA)
LEHIGH UNIVERSITY

Kofi Arhin is an Assistant Professor at Lehigh University's College of Business. His research interests include information security, ethical issues in Information Systems (IS), human-computer interaction, and web technologies. Currently, Kofi is working on research projects that aim to proffer solutions to ethical concerns in the design and implementation of artificial intelligence (AI) systems.

Kofi holds a Ph.D. in Information Systems (IS) from Rensselaer Polytechnic Institute, where he received the Del & Edith Karger Dissertation Prize in Management in recognition of his impactful research on the societal impacts of AI. Kofi graduated with an MSc. and MPhil in Information Systems from the GIMPA School of Technology, and a BSc in Development Planning from the University of Science and Technology in Kumasi, Ghana.

In the past, Kofi has served as a reviewer for the International Conference on Information Systems, Academy of Management, NeurIPS, Conf-IRM, Hawaii International Conference on System Sciences (HICSS), European Conference on Information Systems (ECIS), IEEE Transactions on Engineering Management, and African Journal of Information Systems.
