Center for Supply Chain Research at Lehigh

### **RICK SEIBERT**

Senior Vice President,  
Technology & Innovation

Sharp

Rick Seibert has over 30 years' experience in the Life Sciences industry, including Medical Device, Surgical Instrument and Pharmaceutical Packaging & Services. His primary area of expertise is in Strategic Planning, Business Development, Project Management, Business Process Improvement and Technology Services. At Sharp, Rick is responsible for leading technology and innovation for Sharp's global network of commercial packaging and clinical services facilities in the US, UK, Belgium, and the Netherlands. Rick is also responsible for corporate development where he manages the growth and overall strategic direction of the business.

Rick's broad operational and industry experience is founded on a robust educational background. He has a B.A. in Applied Science, B.S. Industrial Engineering, MS Manufacturing Systems Engineering and an MBA from Lehigh University in Bethlehem, PA. Additionally, he has a post MBA Graduate Certificate in Pharmaceutical Marketing from St. Joe's University and a post Graduate Certificate in Pharmaceutical Manufacturing from Stevens Institute of Technology. Rick has also earned a Green Belt in Six Sigma, and holds a PMP certification from the Project Management Institute.
