

# CSCRL FALL FORUM

TALENT AND TECHNOLOGY - THINKING OUT OF THE BOX  
NOVEMBER 2-3, 2023

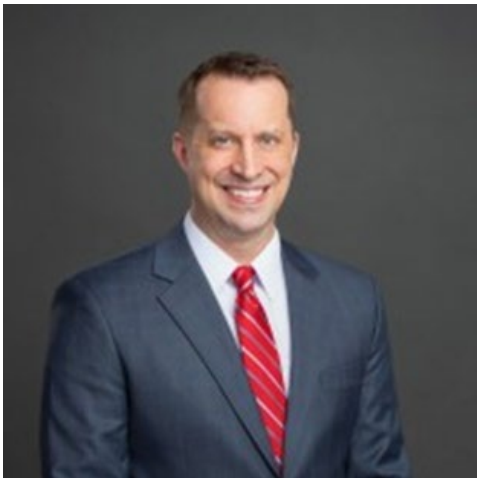

SPEAKER BIO

---

## BRANDON GRISSOM

ENTERPRISE DIRECTOR OF OPERATIONAL EXCELLENCE, DORMAN PRODUCTS

---

Brandon Grissom leads the effort at Dorman to modernize their distribution centers. Through process improvement and automation technology Brandon has focused on combining fundamental supply chain principles with cutting edge data science and automation platforms to bring efficiency and scalability to labor intensive and manual processes.

Brandon worked with Amazon on the initial launch of Amazon Fresh delivery, including designing integrated Outbound Operations and Last Mile technology to improve customer on-time and delivery performance. Upon joining Dorman, Brandon has launched multiple upstream and downstream projects including a new warehouse execution system (WES), vertical lift modules (VLMs) for improved pick rate and safety, and autonomous mobile robots (AMRs) to reduce travel through all departments in the facility. By focusing on the core functionalities of a business and adding automation to improve performance in key areas, the strategic roadmap can be followed to ensure all levels of the business are successful.
