

CSCRL FALL FORUM

INNOVATING FOR THE FUTURE: THE ROLE OF TECHNOLOGY IN THE
SUPPLY CHAIN

NOVEMBER 7-8, 2024

SPEAKER BIO

MIKE JOCSAK

DIRECTOR, SUPPLY CHAIN OPERATIONS, AIR PRODUCTS

Mike Jocsak is the Supply Chain Operations Director for Air Products and Chemicals, Inc. He has responsibility for the Company's North American Fleet Organization, H2fM Operations Team along with other operations responsibilities. For the past three years, Mike has led the Company's initiatives to define a roadmap and begin the journey to convert AP's North America heavy duty tractor fleet from diesel to hydrogen fuel cell. Shown in the picture at left, behind Mike is an AP demonstration fuel cell electric truck making a liquid nitrogen delivery.

Mike is passionate about developing talent and future leaders within the Company as well as using data and project management skills to drive results. Mike has a BS degree in Mechanical Engineering from Lafayette College and an MBA from Lehigh University.

Mike and his wife Pam live in Fleetwood, PA. They have 3 adult children. Mike and Pam enjoy bike riding on rail trails and kayaking.
