

# CSCRL FALL FORUM

INNOVATING FOR THE FUTURE: THE ROLE OF TECHNOLOGY IN THE  
SUPPLY CHAIN

NOVEMBER 7-8, 2024

ABSTRACT

---

## WHEN AI MEETS CYBER SECURITY – SECURITY IMPLICATIONS OF THE SOFTWARE SUPPLY CHAIN

MARK OSTROWSKI

HEAD OF ENGINEERING, OFFICE OF THE CTO  
CHECK POINT SOFTWARE TECHNOLOGIES LTD.

---

We will explore how Artificial Intelligence and Machine Learning has changed Cyber Security in four major areas: Offensive, Defensive, Inside Organizations and Operations. We will also discuss how the attack landscape has become increasingly more complex with focus on the implications of attacks on the Software Supply Chain. Lastly, we will consider what we can do as students, employees and people to prevent these attacks from the start.
