

CSCRL FALL FORUM

INNOVATING FOR THE FUTURE: THE ROLE OF TECHNOLOGY IN THE
SUPPLY CHAIN

NOVEMBER 7-8, 2024

SPEAKER BIO

DONALD LEVICK

PHYSICIAN AND FORMER CHIEF MEDICAL INFORMATION OFFICER,
LEHIGH VALLEY HEALTH NETWORK

Donald Levick, MD, MBA, CPE, FHIMSS, FAAP is a semi-retired pediatrician and a former Chief Medical Information Officer at Lehigh Valley Health Network. He spent over twenty years in healthcare information technology, and was involved in the implementation of the enterprise electronic health record and several other large scale clinical technology projects at LVHN. Dr. Levick was involved in local and national clinical decision support efforts and was one of the authors of, “Improving Outcomes with Clinical Decision Support: An Implementer's Guide.” He has spoken nationally and published on healthcare IT, change management and clinical decision support.

Dr. Levick was the Principal Investigator, in collaboration with the Department of Economics of Lehigh University, of a \$1.2M grant from the Agency for Healthcare Research and Quality exploring the clinical and financial impact of electronic records on birth outcomes.

Dr. Levick resides in Allentown with his semi-retired pediatrician wife. They have three adult children, none of which went into healthcare, and one adorable grandson.
