

DEPARTMENT OF ECONOMICS – CREDIT TRANSFER POLICIES

THE BASICS:

The Department of Economics will only accept credits from in-person and online courses taken at institutions deemed to be at least equivalent in quality to Lehigh University.

Approval must be given BEFORE the course is taken.

The following will **NOT** be accepted:

1. Courses taken at community colleges (unless you are a community college graduate transferring into Lehigh under an articulation agreement between Lehigh and the community college).
2. **Regarding Summer and Winter Term Courses:** Credit transfer will not be given for Economics courses that are being offered by Lehigh in summer and winter. These classes are typically: ECO 001, 045, 119, and 146.

PLEASE NOTE:

Credit transfer for **ECO 001** will only be accepted if the course taken elsewhere covers both micro and macro; a principles course in micro only or in macro only will be given 2 credits for Eco 099 (Special Topics). If students have taken two separate courses, one in micro and one in macro, and apply to transfer both, a total of 6 credits, 4 for Eco 001 and 2 for Eco 099, will be given in approved cases.

For economics **majors** and **minors**, **no more than 50% of economics electives can be taken outside of Lehigh** to fulfill the major or minor requirements (with the possible exception of students attending a year-long Lehigh approved study abroad program at an elite foreign institution).

HOW COURSES ARE EVALUATED:

A recent syllabus must be provided for the course to be considered for credit transfer.

If a similar class is taught at Lehigh, the syllabus will be reviewed by Economics faculty who are familiar with the course content. The content must be comparable to Lehigh's course.

If a similar class is not taught at Lehigh, the syllabus will be reviewed by Economics faculty for relevant details, e.g., prerequisites and readings. If acceptable, the class may be transferred as "Special Topics" (e.g., ECO 291). Such classes will be evaluated on a case-by-case basis.

In either case, **at least 50% of the final grade** must be calculated using work that we are confident was done by the individual student, e.g., in-class exams or individual (non-group) term papers.

WHOM TO CONTACT AND WHAT TO PREPARE/PROVIDE:

Incoming freshmen with questions about AP Economics or transfer credit for other Economics courses should contact **Registration & Academic Services (RAS)** by emailing ras@lehigh.edu.

For in-depth information about university transfer credit policies, please see the section “Incoming Students” at <https://ras.lehigh.edu/content/transfer-credit-policy>.

Please provide to RAS:

1. **an official transcript**
2. **a copy of the syllabus** for all courses for which you are seeking transfer credit

Current Lehigh students - Courses taken at US schools and non-US schools during Summer/Winter Term

Please contact **Prof. Chad Meyerhoefer** (chm308@lehigh.edu) in the Department of Economics, who will then contact the student after a decision has been made.

For in-depth information about university transfer credit policies, please see the section “Current Students” at <https://ras.lehigh.edu/content/transfer-credit-policy>.

Please provide to Professor Meyerhoefer:
